2015-16 School Accountability Report Card Published During the 2016-17 School Year

The STEAM Academy at Burke - Mission Statement:

Our mission is to prepare all students to succeed in a changing world by helping them develop the skills needed to become effective communicators, problem solvers, critical thinkers, and responsible and resilient members of society. To foster these goals, STEAM Academy staff will provide an engaging and relevant, PBL based curriculum that is rich in technology, as well as a positive and safe learning environment.

School Description:

The STEAM Academy @ Burke serves the community of Pico Rivera, California, where many teachers and classified staff grew up and/or currently reside. We have an attractive campus that meets the needs of students and staff. The STEAM Academy @ Burke serves 620 sixth through eighth grade students, with 24 full time teachers, a counselor, and 30 support staff. We are the first magnet middle school within the El Rancho Unified School District. Our school has been created to offer students a unique educational program designed to engage students in the learning process, and help them develop the necessary skills to be college and career ready. Middle school is a time of transition for parents and students. It is a time of growth, change, and challenges. We want to assure you that our experienced staff is here to work alongside you to insure that your son or daughter takes full advantage of his or her educational opportunities.

STEAM - Science, Technology, Engineering, Arts and Mathematics - is the broad umbrella for how the curriculum in this new and innovative program is organized. Students will tackle middle school concepts while incorporating the 4 Cs of 21st Century learning – critical thinking, communication, collaboration, and creativity. Our Magnet program supports and supplements the Common Core curriculum, providing a common lens through which children master knowledge while interdisciplinary teaching enables students to make important and long lasting connections across content areas. Teachers work in teams to design and develop lessons centered around Project Based Learning, which is a teaching method in which students gain the knowledge and skills by working for extended period of time to investigate and respond to a complex question, problem, or challenge. In addition, students are offered a wide range of electives that fall under the broad umbrella of STEAM.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at http://www.cde.ca.gov/ta/ac/sa/.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at http://www.cde.ca.gov/fg/aa/lc/.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2016-17)

The El Rancho Unified School District follows the State adoption guidelines and adoption cycles for textbooks in reading, math, social studies, science, and English language development (ELD) used in the elementary schools. Recommendation for adoption of textbooks is made through a District committee of teachers, administrators, and parents. Input from all school staff members and parents are vital to making the recommendation. The District Committee discusses the school's recommendations and votes for a textbook to be adopted. The recommendation is then taken to the school board, who makes the final decision on the adoption of all textbooks.

Textbooks are adopted from the most recent state-approved list and are consistent with the content and cycles of the curriculum frameworks adopted by the State Board of Education. Every student is assigned one textbook and workbook in the core subjects for use in class and to take home.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

Science test results include CSTs, CMA, and CAPA in grades five, eight, and ten. The "Proficient or Advanced" is calculated by taking the total number of students who scored at Proficient or Advanced on the science assessment divided by the total number of students with valid scores. Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments. Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. The number of students tested includes all students who participated

in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

• Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement (School Year 2016-17)

SSC- School Site Council School Site Council meetings present opportunities for parents, teachers, students, and support staff to articulate and disaggregate data from assessment and instruction. Parents are invited to attend School Site Council Meetings on a designated Thursday every other month.

Think Together - After School Program in Recreation and Enrichment Provides academic support and recreation for those recommended students in 6th, 7th, and 8th grade. Academic support is provided by college tutors. Parents are invited to watch their children as they participate in sports games as part of this program.

ELAC – English Learner's Advisory Council The monthly English Learner's Advisory Council (ELAC) meetings are comprised of EL parents, teachers, and administrators. At ELAC meetings, parents are informed and given copies of state standards. Currently, the ELAC's responsibilities have been ceded to the School Site Council.

Community Partnerships District-wide, The STEAM Academy works in partnership with the Hispanic Scholarship Fund. The partnership with HSF is to help create awareness about scholarship opportunities and the necessary requirements for a 4-year university. Each year, students and parents attend informational meetings about supporting and reaching academic goals. Student participants attend field trips and presentations geared towards preparation for post-secondary education. Multiple scholarships are available to students as they move through high school and into post-secondary education.

Our school has built close partnerships with many service providers in the community to prevent substance abuse. For example, students from The STEAM Academy receive counseling from ALMA Family Services.STEAM Academy facilitates, promotes, and hosts community events and activities with ERUSD and the City of Pico Rivera. Activities focus on concrete ways students can support their community. Each holiday season, STEAM Academy has a Canned Food Drive; food baskets are donated to needy families in a food distribution program facilitated by the Pico Rivera Women's Club. "Christmas in Baja" is an opportunity for students and staff to donate gifts that local community members take to children in Mexico. Other community involvement opportunities include: City of Pico Rivera March for Peace, American Cancer Society's Relay for Life at El Rancho High School, Pennies for Patients (a program to raise money for the Leukemia and Lymphoma Society), and Community Pride Day. Every day, at the beginning of second period, announcements are made notifying students of activities. These announcements are kept at a minimum in order not to disrupt the learning environment. Teachers also take a proactive role in establishing community connections.

DAC – District Advisory Council This council is the same as the School site council, but on a district level.

DELAC – District EL Advisory Council This council is the same as the English Learner's Advisory Council, but on a district level.

STEAM Parent Academy - Parents are invited to attend these sessions to learn about our math program, how to help their child with their math homework, as well as how to navigate the various online platforms the school uses for exchange of information.

State Priority: School Climate

The SARC provides the following information relevant to the School Climate State Priority (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan

Safety Plan is reviewed with staff once a month during staff meetings. Key elements of the plan are preparation for fire, earthquake, active shooter, and hazardous materials. Fire drill and earthquake drills are conducted once a month, emergency bin is inspected twice a year, and all fire extinguishers are checked once a month by custodian. Fire marshal and inspectors review school twice a year to ensure safety compliance.

Professional Development provided for Teachers

The El Rancho Unified School District provides professional development programs that provide a wide range of professional growth and support opportunities to serve the needs of teachers/staff at all learning stages:

- Beginning Teachers Support and Assessment (BTSA) program as approved by the State of California which provides experienced mentor support for all new teachers earning their California Clear Credential
- Peer Assistance Review (PAR) program for veteran teachers which provides seminars and individual coaching for teachers refreshing their skills and learning new strategies
- Certificated and Staff Training
- Site Administrator Training
- Buck Institute for Education Project-Based Learning (PBL)
- **Digital Learning Coaches**
- AVID Training •

We dedicate three full days and approximately 18 half days toward professional development at our school sites per year. The topics addressed at our training are based on teachers' need assessment surveys, student assessment data analysis, and district and school-wide action plans. Our intern teachers are supported by university supervisors. Professional development at individual school sites are determined by the instructional focus. English Learner and special population training are offered on site as needed. In addition, teachers also attend off-site workshops or conferences.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at http://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
