## 2021-2022 School Accountability Report Card (Published During the 2022-2023 School Year)

### General Information about the School Accountability Report Card (SARC)

#### SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>

For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>

For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

#### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

#### California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

#### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## 2022-23 School Overview

### School Description

At our school, the areas of focus are reading comprehension, vocabulary development, math application, writing strategies, and increased use of technology for all students. As a team we continuously analyze data, and collaborate to ensure success for all our students. Standardized assessments assist us to make informed decisions about instruction through our State, District, and local measures. Our school is driven by a Standards-based curriculum that is set by guidelines created by the State of California. In addition, we utilize research-based strategies and professional development to achieve our goals. Students of all abilities, from a variety of linguistic and socioeconomic levels, come together as a learning community at North Ranchito. The school community expects all students to achieve high standards as we have established in our School Plan for Student Achievement (SPSA).

Students approach their education with dedication and enthusiasm. Grades TK-5 students receive Trimester Awards where the top performing students are recognized in the areas of reading, math, and PBIS Model Citizen. They are eager to receive these awards and challenge each other on the dynamic education derived from our Standards-based curriculum.

North Ranchito teachers are well qualified to handle the challenge of delivering a Common Core based education to a bright and diverse student body. Many teachers live in the community and are bilingual and bicultural. Emotionally invested in the school, they arrive early, work late, and serve in leadership roles. This is truly a testament to the tireless work and efforts of our staff on the behalf of the students and families that they serve.

Our goal is to work in a partnership with our parents and community to bolster student achievement and school climate.

The community of North Ranchito is vibrant and enthusiastic. We will continue to reach for the stars and raise expectations for our school in the pursuit of excellence.

### North Ranchito Elementary School Mission Statement

The mission of the staff, parents, and community of North Ranchito is to prepare our students to participate, appreciate, and flourish in the rich cultural heritage of their community and to successfully navigate through an increasingly globalized world. To prepare our students to be global citizens, we will foster a nurturing climate that promotes humanity and a passion for lifelong learning. Driven by research-based principles, we are committed to providing our students with the tools to promote creativity,

## 2022-23 School Overview

critical-thinking, communication and collaboration. In meeting these 21st century goals we, as teachers and leaders, employ established educational theory, innovative strategies, Standards-based instruction and assessment, data analysis, and reflection to promote the academic excellence of all students.

### North Ranchito Elementary School Vision Statement

North Ranchito is a school where every staff member at the school is focused on improving student achievement in all areas. The staff, students, and community believe the goal of education is to produce citizens who will make a positive contribution to our society. We believe that all students can learn and succeed. We have high expectations and standards for our students in the area of academics. A knowledgeable, creative, and dedicated staff works effectively each day to provide a Standards-based instructional program to 375 students. All students from Transitional Kindergarten to fifth grade are the focus of all school programs.

Note: The data in this table is based on Full Time Equivalent (FTE) status. One FTE equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time. Additionally, an assignment is defined as a position that an educator is assigned based on setting, subject, and grade level. An authorization is defined as the services that an educator is authorized to provide to students.

## 2022-23 Quality, Currency, Availability of Textbooks and Other Instructional Materials

The El Rancho Unified School District follows the State adoption guidelines and adoption cycles for textbooks in reading, math, social studies, science, and English language development (ELD) used in the elementary schools. Recommendation for adoption of textbooks is made through a District committee of teachers, administrators, and parents. Input from all school staff members and parents are vital to making the recommendation. The District Committee discusses the school's recommendations and votes for a textbook to be adopted. The recommendation is then taken to the school board, who makes the final decision on the adoption of all textbooks.

Textbooks are adopted from the most recent state-approved list and are consistent with the content and cycles of the curriculum frameworks adopted by the State Board of Education. Every student is assigned one textbook and workbook in the core subjects for use in class and to take home.

## School Facility Conditions and Planned Improvements

North Ranchito Elementary School opened in 1951. There are 33 classrooms on the campus. The average size is 1,090 square feet. The school also has a library/technology lab, teacher workroom, one office building, and a cafeteria. There is one health clerk's office and one bed. There are two athletic fields and two parking lots.

The principal, teachers, and playground supervisors monitor students during lunch, recess, before school, and after school. They are trained by the school administration to encourage students to be respectful, be responsible, and be safe. In addition, teachers, supervisors and support staff carry two-way radios to maintain contact with office staff and administration in case of emergency.

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).
4. **College and Career Ready**  
The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### SARC Reporting in the 2020-2021 School Year Only

Where the most viable option, LEAs were required to administer the statewide summative assessment in ELA and mathematics. Where a statewide summative assessment was not the most viable option for the LEA (or for one or more grade-level[s] within the LEA) due to the pandemic, LEAs were allowed to report results from a different assessment that met the criteria established by the State Board of Education (SBE) on March 16, 2021. The assessments were required to be:

- Aligned with CA CCSS for ELA and mathematics;
- Available to students in grades 3 through 8, and grade 11; and
- Uniformly administered across a grade, grade span, school, or district to all eligible students.

#### Options

Note that the CAAs could only be administered in-person following health and safety requirements. If it was not viable for the LEA to administer the CAAs in person with health and safety guidelines in place, the LEA was directed to not administer the tests. There were no other assessment options available for the CAAs. Schools administered the Smarter Balanced Summative Assessments for ELA and mathematics, other assessments that meet the SBE criteria, or a combination of both, and they could only choose one of the following:

- Smarter Balanced ELA and mathematics summative assessments;
- Other assessments meeting the SBE criteria; or
- Combination of Smarter Balanced ELA and mathematics summative assessments and other assessments.

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

## Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

The 2020-21 data cells have N/A values because these data are not comparable to other year data due to the COVID-19 pandemic during the 2020-21 school year. Where the CAASPP assessments in ELA and/or mathematics is not the most viable option, the LEAs were allowed to administer local assessments. Therefore, the 2020-21 data between school years for the school, district, state are not an accurate comparison. As such, it is inappropriate to compare results of the 2020-21 school year to other school years.

Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Subject	School 2020-21	School 2021-22	District 2020-21	District 2021-22	State 2020-21	State 2021-22
<b>English Language Arts/Literacy</b> (grades 3-8 and 11)	N/A	30	N/A	39	N/A	47
<b>Mathematics</b> (grades 3-8 and 11)	N/A	26	N/A	22	N/A	33

## 2021-22 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2021-22 CAASPP Test Results in Math by Student Group

This table displays CAASPP test results in Math by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

Mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

#### 2021-22 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. Due to changes to the 2021-22 PFT administration, only participation results are required for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

#### 2022-23 Opportunities for Parental Involvement

The staff at North Ranchito believes that the first and most important teachers of our students are their parents. Parents, grandparents, and guardians are an integral part of the educational process at North Ranchito. They play a vital role in their children's success at school. In order to build a strong link between home and school, parent communication is ongoing.

At North Ranchito, we are extremely proud of our parents and community members that participate in all school activities. North Ranchito has set ambitious goals for parent involvement in our SPSA. Parents play a great role in their child's education through a variety of avenues, such as the School Site Council (SSC), English Learner Advisory Committee (ELAC). Parents have an opportunity to contribute to their child's education and work in partnership with the school to provide the highest quality education for their children. Parents and SSC play a very active role in supporting the schools goals.

The site, in partnership with the District and community resources, offers many resources for parents. Parenting classes, advisory boards, English-Language Development (ELD) courses, health/drug awareness education, math and writing workshops, and other numerous activities for parents at our school are all offered bilingually. We typically provide opportunities for parents to visit the school by providing venues for participation through Back-to-School Night, Open House, and various other student-centered activities. In response to the recent pandemic, virtual opportunities are provided for parent involvement.

For more information on how to become involved at the school, please contact Principal Rachel Aguirre at (562) 801-7630

### C. Engagement

#### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety

## Suspensions and Expulsions

This table displays suspensions and expulsions data collected between July through February, partial school year due to the COVID-19 pandemic. The 2019-20 suspensions and expulsions rate data are not comparable to other year data because the 2019-20 school year is a partial school year due to the COVID-19 crisis. As such, it would be inappropriate to make any comparisons in rates of suspensions and expulsions in the 2019-20 school year compared to other school years.

Subject	School 2019-20	District 2019-20	State 2019-20
Suspensions	0.00	2.16	2.45
Expulsions	0.00	0.08	0.05

This table displays suspensions and expulsions data collected between July through June, each full school year respectively. Data collected during the 2020-21 school year may not be comparable to earlier years of this collection due to differences in learning mode instruction in response to the COVID-19 pandemic.

## 2022-23 School Safety Plan

The School Safety Plan addresses all issues of staff and student safety, including plans for quick and orderly evacuations. The School Safety Plan outlines a communication system that allows the school community and local emergency services to mobilize a response to immediate concerns. North Ranchito employs two-way radios to alert school staff in the event of an emergency. Classrooms are equipped with an emergency kit containing disaster supplies and a system of colored cards that alert the School Safety Committee to trapped or injured students or staff. The School Safety Plan was last reviewed, updated, and discussed with the school faculty and put into practice October 2022.

North Ranchito provides a safe, attractive campus that meets the needs of students and staff. Earthquake and fire drills are conducted regularly to prepare all students and staff for emergency situations. In order to ensure effective preparedness in case of an emergency, the staff reviews each drill and maintains disaster emergency supplies.

The safety of the students and the staff is always a high priority. Our commitment is to provide a safe environment for learning. North Ranchito School is a secured campus. School staff members supervise student playgrounds and District police units are available to further ensure the safety of children before, during, and after school.

It is our goal to ensure North Ranchito is a safe and conducive environment for learning.

## Professional Development

The district provides professional learning opportunities to meet the needs of administrators, teachers, and support staff at all levels of the organization: Beginning Teachers Support and Assessment (BTSA); Peer Assistance Review (PAR) for veteran teachers; District and site administrators; Teachers and support staff; and Digital Learning Coaches.

Professional development is determined by in-depth data analysis and aligned to the instructional focus areas. English learners and special population training are offered on-site and at the district level as needed. In addition, teachers and support staff also have the opportunity to participate in virtual workshops or conferences.

Traditionally, the analysis of data led to the identification of professional learning priorities. Whole group instruction, small group differentiated instruction, and designated English language development supported strengthening language arts instruction at the elementary level. Professional learning in mathematics focused on the Standards for Mathematics Practice, in conjunction with problem-solving and modeling and data analysis at the middle school level. At the high school, professional learning was prioritized for the Expository Reading and Writing Course which develops students' academic literacy in rhetorical and analytical reading, writing, and thinking. All schools participated in professional learning opportunities centered on data literacy. Professional development has traditionally been provided during modified day schedules, pupil-free days, release days, and conferences/workshops outside the district. Professional learning is supported through in-class coaching, teacher-principal meetings, observations, and demonstration lessons.

This table displays the number of school days dedicated to staff development and continuous improvement.
